

Warranty Policy

Bench Test and Certifications

Unit's bench tested/inspected and found to be within tolerance as described by the manufacturer specifications will have no implied warranty.

Repair

Cima Aviation, Inc. will hold responsibility on defects becoming apparent within six (6) months for Avionic components and twelve (12) months for all other components from Tag date. This warranty does not give full coverage on any failure during this time of period but is limited to the repair and replacement of the parts and/or sub-assemblies replaced during the period service action.

Overhaul

Cima Aviation, Inc. will hold responsibility on defects becoming apparent within twelve (12) months for Avionic components and eighteen (18) months for all other components from Tag date. This warranty covers labor and parts previously replaced at time of overhaul.

The following conditions will result in immediate denial of a warranty claim:

- Defects due to tampering
- Broken Warranty Seals
- Unit is received disassembled or broken
- Improper use or handling (Including Shipping)
- Improper storage or operation
- Article not maintained in accordance with the published instruction
- Any attempt to repair clearly defective units
- Unit was sent to another repair shop for any reason.

Shipping

Cima Aviation, Inc. is not responsible for shipping charges to/from the customer for warranty consideration.
